

“The Essential Guide to Sustainable Kitchen Design” and “The Kitchen That Works”

Häcker Kitchens launches two on-demand CEU courses

(Miami, FL) June 2023.

Häcker Kitchens, the leading German manufacturer of modern kitchen cabinetry, has launched two on-demand CEU courses, “The Essential Guide to Sustainable Kitchen Design” and “The Kitchen That Works.”

“The kitchen is one of, if not the most, essential room in a home,” notes Andreas Gommeringer, President of Häcker Kitchens North America. “Designers and homeowners are more mindful

than ever of the materials and products they incorporate in this space as well as its everyday functionality. Through these courses, we aim to provide our clients with the knowledge and power to curate kitchens that are not only safe but enhance their lifestyles.”

“The Essential Guide to Sustainable Kitchen Design” is available upon request. This course offers insight into the factors that define a sustainably designed kitchen, the products and materials that aid in ecological health, the products and materials that should be avoided and how a kitchen can be strategically designed to foster health and wellness in and out of the home.

“The Kitchen That Works” has been launched in partnership with *Architectural Record*. As the desire for calm and orderly spaces becomes a growing trend in residential interiors, there is an increasing need for methodical design and high-efficiency in the kitchen. This course equips designers and homeowners with the tools and best practices to achieve maximum storage, order and organization in this space.

Both courses are available for IDCEC credit.

On-demand access to each course, is provided upon request by emailing hello@haecker-kuechen.us. “The Kitchen That Works” is also available to take immediately, [here](#).

Häcker Kitchens – The Company

Häcker manufactures modern fitted kitchens that meet the highest requirements in terms of quality, functionality, durability and design. Founded by Herman Häcker in 1898, the family-owned company, now in the fourth generation, supplies more than 60 countries on every continent. The North American headquarters is located in Miami, Florida. State-of-the-art production facilities allow the company to meet customer requirements down to the last detail. Häcker Kitchens is the first kitchen furniture manufacturer whose entire product portfolio is climate-neutral. Throughout the years Häcker has represented consistent values in times of globalization, characterized by a high sense of economic, ecological and social responsibility, always emphasizing the company philosophy: Made in Germany.
