Häcker Kitchens Expands Systemat Line with New Design Options and Functional Enhancements for Fully Personalized Kitchens

(Miami, FL) February 2026.

Häcker Kitchens, the leading German manufacturer of modern kitchen cabinetry and surfaces, continues to empower homeowners and interior designers with an expanded range of products, finishes and functional enhancements designed to support highly personalized kitchen planning. With new cabinet dimensions, door finishes, materials, hardware and interior solutions, Häcker Kitchens fortifies its Systemat product line, offering greater flexibility to meet individual design styles, spatial requirements and lifestyle needs.

“At Häcker Kitchens, we believe true luxury lies in the ability to tailor every detail,” says Andreas Gommeringer, president of Häcker Kitchens North America. “These latest enhancements give designers and homeowners even more freedom to customize their kitchens, down to the inch, while maintaining the quality, precision and craftsmanship Häcker is known for.”

Expanded Cabinet Box Styles and Dimensions for Kitchens of All Sizes

To support greater design flexibility and planning precision, Häcker Kitchens has expanded the Systemat line with new cabinet internal box options. A new color, Natural Fine Oak, adds warmth and visual cohesion to cabinet interiors. New dimensional enhancements include a Slim Line drawer size, measuring approximately 24 inches, new cabinet box depths of approximately 24 inches, 26 inches and 30 inches as well as a new tall cabinet unit height of approximately 92 inches, allowing kitchens to maximize storage capacity while responding to architectural constraints and increasing ceiling heights.

New Finishes Bring Depth and Dimension to Cabinetry

Häcker Kitchens has significantly broadened its door finish offerings across all price groups 1–10, reinforcing its commitment to customization at every level. New options include expanded standard color palettes across door styles, new wood-look finishes, additional Perfect Sense® veneer options and new cement-inspired surfaces. These additions enable designers to fine-tune kitchens to align with contemporary, transitional or classic aesthetics while maintaining consistency across materials, product styles and price points.

Linoleum Door Fronts add a Touch of Whimsey

Further expanding its material portfolio, Häcker Kitchens introduces a new Linoleum door line, available in Sage Green, Smoke Blue, Silk Grey and Black. Known for its soft-touch feel,

matte appearance and sustainable composition, linoleum offers a tactile, design-forward option that brings understated elegance and warmth to modern kitchen spaces.

Metallic Touches Enhance Metal Fram Door Fronts

For those seeking a refined architectural statement, Häcker Kitchens introduces a new finishing for its metal frame door, with a glass panel in a Bronze Brushed finish. This addition brings depth, transparency and contrast to kitchen designs, offering a sophisticated option for display cabinetry, feature walls and open-plan living spaces.

Storage, Lighting and Details Balance Form and Function

In addition to aesthetic enhancements, Häcker Kitchens continues to invest in functional innovation with several new interior and cabinetry solutions. New introductions include an updated pocket door system for seamless concealment of appliances and work zones, tall display glass cabinets designed to highlight curated objects, a pull-out glass tray for enhanced accessibility, in-drawer lighting for improved visibility and usability, and a new Black Chrome finish for internal mechanisms and accessories, delivering a cohesive, premium look throughout the interior of the kitchen.

Häcker Kitchens – The Company

Häcker Kitchens manufactures modern fitted kitchens that meet the highest requirements in terms of quality, functionality, durability and design. Founded by Herman Häcker in 1898, the family-owned company, now in the fourth generation, supplies more than 60 countries on every continent. The North American headquarters is located in Miami, Florida. State-of-the-art production facilities allow the company to meet customer requirements down to the last detail. Häcker Kitchens is the first kitchen furniture manufacturer whose entire product portfolio is climate-neutral. Throughout the years Häcker Kitchens has represented consistent values in times of globalization, characterized by a high sense of economic, ecological and social responsibility, always emphasizing the company philosophy: Made in Germany. <https://www.hackerkitchens.us/>
