

Welcome nature-inspired style to the heart of your home with a new finish that embodies the quiet elegance of stone, driftwood and sand.

## **Häcker Kitchens Debuts Sand Grey: A Refined, Earth-Toned Finish**

(Miami, FL) July 2025.

Häcker Kitchens, the leading German manufacturer of modern kitchen cabinetry and surfaces, unveils the latest addition to its collection of finishes: Sand Grey. This serene, natural hue adds a soft ambiance to any space, capturing the tranquility of the outdoors. Available in several of Häcker Kitchens' popular door styles and fronts, Sand Grey is a highly versatile shade that effortlessly complements a wide range of design aesthetics.

As kitchen trends shift away from stark whites, Sand Grey serves as the perfect transition, gently introducing a different neutral hue to interiors. With biophilic and nature-inspired interiors continuing to gain popularity, this organic hue perfectly balances the coolness of grey with the warmth of earthy sand tones, making it ideal for creating timeless, grounded spaces. Häcker Kitchens invites homeowners and designers to use Sand Grey as a base for creating layered palettes that bring depth and texture to spaces.

“Sand Grey provides homeowners and interior designers with the perfect foundation for crafting unique designs,” states Andreas Gommeringer, President of Häcker Kitchens North America. “This universal tone pairs beautifully with wood, stone, linen and other natural materials, offering our customers an elevated design experience.”

Crafted using the same high-quality, sustainable manufacturing processes Häcker Kitchens is renowned for, this finish delivers a premium, stylish look while upholding Häcker Kitchens’ commitment to responsible and eco-friendly production.

**Häcker Kitchens – The Company**

# Press Release

Häcker Kitchens manufactures modern fitted kitchens that meet the highest requirements in terms of quality, functionality, durability and design. Founded by Herman Häcker in 1898, the family-owned company, now in the fourth generation, supplies more than 60 countries on every continent. The North American headquarters is located in Miami, Florida. State-of-the-art production facilities allow the company to meet customer requirements down to the last detail. Häcker Kitchens is the first kitchen furniture manufacturer whose entire product portfolio is climate-neutral. Throughout the years Häcker Kitchens has represented consistent values in times of globalization, characterized by a high sense of economic, ecological and social responsibility, always emphasizing the company philosophy: Made in Germany. <https://www.hackerkitchens.us/>
